

WE ARE IN A CLIMATE EMERGENCY

Climate change is here and the effects can already be seen around the world. World-leading climate scientists at the IPCC have warned that to limit warming to 1.5°C we must halve greenhouse gas emissions by 2030 and bring them to zero by 2050. Going beyond this limit will worsen the risks of drought, floods, extreme heat and poverty for hundreds of millions of people. There is no time to lose. To succeed, we must urgently stop burning fossil fuels.

STOP THE MONEY PIPELINE

America's biggest banks are fueling the climate crisis by investing in carbon polluting industries such as fracking, Arctic oil and gas drilling, and tar sands extraction. JPMorgan Chase alone spent \$196 BILLION* on financing the fossil fuel industry between 2016 and 2018 - more than any other bank. We must Stop the Money Pipeline to stop the destruction of our planet. Chase must stop financing the fossil fuel industry and instead **invest in a clean, renewable future.**

GET INVOLVED

1 **SPREAD THE WORD:** Tell everyone you know about Chase's role in funding the climate crisis. Use #StopTheMoneyPipeline on social media.

2 **CONTACT CHASE:** Call/Write to Jamie Dimon, CEO of JPMorgan Chase, and tell him to stop funding climate destruction.
Phone: 212-270-1111 Email: jamie.dimon@jpmchase.com
Mail: 1185 Park Ave, New York, 10128

3 **MOVE YOUR MONEY:** Close your Chase accounts, move your money into a green bank or local credit union, cut up your Chase card – and tell Chase why you're doing it.
